ABOUT EXPO TIMES

Expo Times is Africa's leading online newspaper with well researched and balanced analyses of news and features covering politics, business, economics, development, human rights, media, arts, culture, tourism, education, health and other social issues about Africa.

Winner of the prestigious International Star Award for Quality in Geneva in October 2002, and winner of the 1996 Best Selling Newspaper award from the National Newspaper Vendors Association, Expo Times has since March 2000 emerged as one of the most authoritative Pan-African online newspapers on socio-cultural and economic issues that lie in the heart of Africa 's development challenges of the 21st century.

Because of the objective and somewhat diagnostic handling of news inside Africa, and about Africans in the Diaspora, coupled with our rich archives, it is increasingly becoming not only a source of reference for top business and development consultants but also a gate way for academic and policy researchers.
